

for the ATTN of the Finance and Democracy Officer

11 JUN 2009

Motion to the UCL Union General Meeting: Appeal for affiliation of UCL Psychology and Psychiatry Society.

This Union notes:

- 1. The society was not affiliated as it was assumed to be too department specific.
- 2. Several societies exist that are very specific, such as the Economics and Finance, Greenough and the Surgical Society.

This Union believes:

- 1. The proposed society is not departmentally based despite the name.
- 2. Psychology and the understanding of its impact on people/life is something several people are interested in and is as much a hobby to some as cycling or a sport.
- 3. If the name of the society is a problem, it can easily be changed to something that sounds more accommodating.

This Union resolves:

- 1. The society should be allowed to be affiliated as there is much interest including people from other departments.
