

## **MANIFESTO**

### **Mary Williamson – Women's Officer**

Below are outlined my aims if I obtained office:

As Women's Officer I will:

- Campaign for female equality in all aspects of the UCL union both in terms of social and academic activities. Of particular personal interest is an aim to remove the overt sexual role often associated with females at social events. For example the choice of themes for our student night; Vodpop.
- Not only aim to correct inequality but try and promote positive female involvement not just at university events but aim to encourage corporate women's events and programmes to be held at UCL. For example, through investment banking or law firms.
- Ensure women feel secure on and around campus at all times of the day and night.
- Aim to raise awareness of my role amongst the women of UCL.
- Make myself accessible for consultation not only to the female population but the general UCL student body. The easier it is for women to voice their views, the easier it will to represent the majority of UCL females.

As a Council Member:

- I shall be committed to attending all meetings, not just as a face to a name, but playing an active role in any matter raised.
- As an opinionated and driven individual I will ensure that women are integral not only to the council but the union as a whole.
- I will contribute the optimum commitment to any duty assigned to me.
